

Rocport ID9

2.5" Mobile (Pocket) Hard Drives
FireWire 800, FireWire 400 and USB Ports

Rocport ID pocket drives deliver outstanding performance and reliability and available in multiple colors. Designed and engineered in the U.S.A. to meet the needs of the demanding mobile data storage market, the ROCPORT ID 2.5" external hard drive is compatible with both Windows® and Macintosh® environments.

GROUNDBREAKING DESIGN:

Sophisticated users will appreciate the ROCPORT ID innovative design, feel, quality and features. A combination of ports, FireWire 800 (1394b IEEE), FireWire 400 (1394a IEEE) and High Speed USB 2.0, make this triple-interface device one of the most versatile drives in the market today. For extra flexibility, an optional cable can connect the FireWire 800 port to any FireWire 400 (1394a IEEE) port in any Mac or PC.

The anti-shock chamber and shock-absorbent casing protect the drive against impact damage and accidental drops and bumps to prolong product life and protect data integrity. The wide array of ports ensures maximum compatibility regardless of the type of computer or operating system in use.

Like other Rocstor products, ROCPORT ID drives are both bus-powered and bootable. The new ROCPORT ID pocket drives contain a fast, high capacity 2.5" SATA drive mechanism, with up to 800 Mbit/sec transfer speeds and multiple interfaces.

WIDE RANGE OF APPLICATIONS

Operating with Mac OS, Linux® and Windows®, this external drive offers storage capacities ranging from 500GB to 750GB as well as "plug-and-play" capability. Users can quickly archive or back up valuable data, large video files and digital photo collections. The bootable feature allows the user to boot, access and operate all programs and data via any other computer under the same OS environment.

SPECIAL FEATURES:

- Pocket size external storage drive
- Incorporates SATA Hard Drive
- Rocport ID9: USB 2.0, FireWire 400 (1394a) and FireWire 800 (1394b) connections
- FW 1394 bus powered and bootable
- Speeds up to 800 Megabytes per second
- Enhanced with shock-resistant casing, despite its small size
- Reduces power consumption with hard drive spin-down support
- Daisy chain multiple FireWire devices as storage needs grow
- Automatic configuration (pre-formatted for plug and play)
- Cross-platform compatibility (PC and Mac)
- Includes all necessary cables and software

PACKAGE CONTENTS:

MINIMUM SYSTEM REQUIREMENTS:

Mac and PC:

- FireWire 800 (1394b IEEE)
- FireWire 400 (1394a IEEE)
- USB 2.0 (1.1) port(s.)

Mac: PowerPC or Intel Core Duo processor

PC: 266Mhz or faster Intel or equivalent processor

Recommended Memory: 512MB RAM

OS Requirements

Mac: PowerPC or Intel processor running Mac OS 9, X, (Snow) Leopard

PC: Microsoft® Windows 2000, Me, XP, Vista, or Windows 7

| ROCPORT ID9 SPECS | |
|---------------------------|---|
| Capacity | - 500GB, 640GB, 750GB |
| Rotational Speed | - 5400 OR 7200 RPM |
| Dimensions (HxWxD) | - ~ 5 x 3 x 0.6 in (~12 x 7.5 x 1.6 cm) |
| Weight | - ~ 6.4 oz (0.18 kilograms) |
| Power Requirement | - 1394 BUS POWER |
| Interface | - USB 2.0 port x 1 up to 480Mbit/s FireWire 800 (1394b) x 1 up to 800Mbit/s, FireWire 400 (1394a) x 1 up to 400Mbit/s |
| Warranty | - 2 year limited warranty, Unlimited toll-free telephone tech support |
| Color Choices | - Charcoal, Silver, Purple, Yellow, Red |

Capacity Disclaimer: Actual accessible hard drive capacity will indicate up to 10% lower than stated under different Operating Systems and formatting. Therefore, a 500GB capacity drive will show up as a 450GB drive (approximately.)
