

ROCBIT FX

Rocstor Unveils Its Newest Value Line of Encryption Products ROCBIT FX; Highly Secured by eNova Hardware and Real-Time AES-256 chipset in addition to Performance Shock-Absorbent enclosures for Secure Mobile Storage Applications

Canoga Park, (Los Angeles) California – January 2, 2009 – Rocsecure a division of Rocstor, a leading provider of fast, high-capacity data storage and encryption solutions, is announcing its new line of ROCBIT FX external hard drives. The ROCBIT FX Pocket Drives deliver exceptional security, performance and reliability. Designed and engineered in USA to meet the needs of secure mobile data storage market, The ROCBIT FXKT 2.5” external hard drive is also compatible with both Windows® and Macintosh® environments.

With ROCBIT FX series futures and a great price point starting at under \$100 for 250GB, the security is now affordable, not only for small businesses but for individuals as well, according to Mr. Asher, Director of Business Developments.

Additionally it contains one of the most secure encryption modes ECB. This drive is both bus-powered and bootable. The new ROCBIT FXKT with key-Token and ROCBIT FXPW, host Password Protection secure Pocket Drives contain a fast, high capacity 2.5” SATA drive mechanism, with up to 480 MB/sec transfer speeds and silent operation.

Design Technology:

The first of its kind in design and touch; The ROCBIT FX series Pocket Drives designed to satisfy the sophisticated audiences in respect to design in addition to unprecedented quality. The ROCBIT FXKT, with its High Speed USB 2.0 is cross platform compatible with Mac and PC “Windows”. The ROCBIT FXPW also contains a USB 2.5 port however, it is PC (Windows) based, at this time, where the user type in his/her password on his/her host computer keyboard to access the data.

The anti-shock chamber and shock-absorbent casing protect the drive against impact damage, accidental drops and bumps. These outstanding design features prolong product life and protect data integrity.

Wide Range of Applications

Operating with Mac OS, Linux® and Windows®, this external drive offers storage capacities ranging from 160GB to 500GB. In addition to encryption security, this will allow users to quickly archive valuable data, large video files or growing digital photo collections or simply backing up important data. The bootable feature allows the user to boot, access and operate all programs and data via any another computer under the same OS environments with this hard drive.

Special Features:

- Pocket size external storage drive
- Incorporates SATA Hard Drive
- USB connections
- Speeds up to 480 Mega Bytes per second
- Enhanced with Shock-Resistant mechanism, despite its small size.
- Cross-platform compatibility on ROCBIT FXKT
- Includes all necessary cables and software

Specifications:

Capacities: 160GB, 250GB, 320GB and 500GB

Rotational Speed available with 5,400 or 7200 rpm

Interface: High Speed USB 2.0 (1.1 Compatible)

Transfer Rates: Up to 480MB/s USB

Dimension: To be announced

Weight: 6.2 Ounce

System Requirements

Mac or PC computers with USB (1.1 or 2.0) using ROCBIT FXKT

PC computers with USB (1.1 or 2.0) using ROCBIT FXPW

Apple: PowerPC[®] or Intel[®] Core Duo[®] processor

PC: 266MHz or faster Intel or equivalent processor

Recommended Memory: 512MB RAM

Operating System requirements:

Apple: PowerPC[®] or Intel Core Duo[®] processor running Mac OS 9, X or higher

PC: Microsoft[®], Windows[®], 2000, Me, XP or Vista

Power Requirements: USB Bus Power

Availability: ROCBIT KT series will be available in February 2009, in a variety of capacities, throughout our national and International Dealer/Reseller Channel. For more product information, visit <http://www.rocstor.com>

Designed, Assembled and integrated in U.S.A. using domestic and/or foreign components. Rocstor is a California Company.
