

PRESS RELEASE

Rocstor Unveils Its Newest Encryption Product the **COMMANDER 2U3; Highly Real-Time Hardware Based **AES-256** Encryption. **FIPS (US Federal Information Processing Standard) 140-2/3** Cryptographic Engine validated for Physical Security. With **USB 3.0** and **FireWire 800** ports, in Ruggedized Aluminum and Shock-Absorbent Casing for Secure Mobile Storage Applications**

Canoga Park, (Los Angeles County) California – January 3, 2011 – Rocsecure a division of Rocstor, a leading provider of fast, high-capacity data storage and encryption solutions, is announcing its new product COMMANDER 2U3 encrypted external hard drives. The COMMANDER 2 Pocket Drives deliver exceptional security, performance, and reliability. Designed and engineered in USA to meet the needs of secure mobile data storage market, The COMMANDER 2U3 2.5" external hard drive is also compatible with both Windows® and Macintosh® Operating Systems.

The Rocsecure Commander 2 **Ruggedized** external pocket mobile hard drives are industry's most versatile, **Real-Time, Hardware Encrypted** storage solution available. **FIPS (US Federal Information Processing Standard) 140-2 Level 3 Cryptographic Engine** validated for Physical Security. Commander 2U3, with USB3.0 and FireWire 800 interfaces offers security-sensitive users a wide range of NIST certified DES (Data Encryption Standard) and AES encrypted algorithms. Commander 2.5" ultra-slim drives are designed with AES-256 bit real-time hardware data encryption security performance which effectively intercept, interpret, translate and relay SATA data commands to and from disk drives in "Real-Time". Commander product lines are designed with new shock-absorbent Damper Strip protection. Rocsecure drives offer the technologies you need to keep you data secure and safe.

Additionally, the encryption contains "ECB", which is one of the most secure encryption modes. This drive is both bus-powered and bootable." The new COMMANDER 2U3 with key-Token authentication Pocket Drives contain a fast, high capacity 2.5" SATA drive mechanism, with up to 5,000Mbits/sec transfer speeds and silent operation.

Design Technology:

The first of its kind in Ruggedized design; The COMMANDER 2 series Pocket Drives are designed to satisfy the sophisticated Military and Government requirements, and they provide unprecedented quality for the consumer as well. The COMMANDER 2U3, with its High Speed USB 3.0 and FireWire 800 is compatible with Mac and Microsoft® Windows® OS.

The ruggedized and enduring Aluminum chamber and shock-absorbent (patent in process) casing protect the drive against impact damage, accidental drops and bumps. These outstanding design features prolong product life and protect data integrity under toughest working environments.

Wide Range of Applications

Operating with Mac OS, Linux® and Windows®, this external drive offers storage capacities ranging from 64GB, 128GB, 256GB Solid State (DDS) and 320GB to 750GB (HDD) as well as “plug-and-play” capability with hard drive speeds of up to 7,200rpm. This allows users to quickly back up or archive valuable data, large video files and digital photo collections.

Special Features:

- **Ruggedized** Pocket size external storage drive
- **Encryption:**
 - AES-256 bit, ECB Mode
 - NIST and **140-2 Level 3 Cryptographic Engine** validated
 - Hardware based (not a software imbeded in a chip)
 - Real-Time (No, down time in encryption or decryption)
 - No software is required
 - Independent of Operating Systems
- Robust and tough Aluminum Casing
- Enhanced Shock-Absorbent casing despite its small size
- Incorporates SATA Hard Drive
- USB 3.0 and FireWire 800 connections
- Bus powered and bootable
- Speeds up to 5,000 Mega Bytes per second
- Compatibility - Mac or Windows® or Linux® ...
- Includes all necessary cables

Specifications:

Encryption:	AES-256 Bit Real-Time Hardware encryption
Authentication:	Digital Keys
Capacities:	Hard Disk Drives = 320GB, 500GB, 640GB and 750GB Solid State Drives = 64GB, 128GB, and 256GB
Rotational Speeds:	available with 5,400 or 7,200 rpm HDD and 250 MB/sec SSD
Interface:	FireWire 800 1394b and High Speed USB 3.0 (2.0 compatible)
Transfer Rates:	Up to 800MB/s FireWire 800, and up to 5,000MB/s USB 3.
Dimension:	~2.95 x 5x 0.63 (0.75) inch ~75 x 12.7 x 16 (19) mm
Weight:	~0.5 lb (~0.2Kg) or less

System Requirements

Mac or PC computers with USB 3.0 (or 2.0) or FireWire 800 or 400

Apple: PowerPC® or Intel® Core Duo® processor

PC: 266MHz or faster Intel or equivalent processor

Recommended Memory: 512MB RAM

Operating System requirements:

Apple: PowerPC® or Intel Core Duo® processor running Mac OS 9, X or Snow “Leopard®”

PC: Microsoft®, Windows®, 2000, Me, XP, Vista or Windows 7®

Power Requirements: USB Bus Power

Availability: Commander 2U3 series will be available at the end of February 2011, through our distribution and reseller channels domestically and internationally. For more product information, visit <http://www.rocstor.com>

Designed, assembled and integrated in the U.S.A.
using domestic and/or foreign components.
Rocstor is a California company, U.S.A.

Rocstor is - excellence in storage technology; a leading provider of fast, high-capacity data storage and encryption security solutions.

Rocstor design, innovation, integration, Research and Development in both standard and encrypted data storage technology is the driving engine for major U.S. industries and governmental departments. Rocstor offers the most extensive range of desktop and rack-mounted RAID , NAS, DAS ... storage hardware, at the most competitive prices. Rocstor’s product line features cutting-edge technologies that are tested rigorously and proven for solid reliability. By coupling new designs with state-of-the-art technology, Rocstor continues to be one of the major players in the world of digital security.

Rocsecure—a division of Rocstor—is the industry leader in Secure Encrypted digital data content storage. Our encrypted hardware-based solutions, featuring AES-256 Real-Time hardware encryption with single or two factor authentications (Comply and certified under NITS, FIPS, Common Criteria ...) should satisfy the requirements of a home consumer, corporate executives, mandatory government requisition, military, ... with our ruggedized military-grade construction and highly secure devices to
